Lucknow, Uttar Pradesh, India

Professional Summary

Proactive and results-driven full-stack developer with expertise in building and optimizing web applications using HTML, CSS, JavaScript, and Java. Demonstrated ability to design responsive interfaces, implement backend functionality, and collaborate team-based projects to achieve technical excellence.

Skills

HTML5, CSS3, JavaScript

Java

C Programming

Full Stack Developer

Responsive Web Design

Git & GitHub

Education

Lucknow University

Bachelor of Computer Applications (2022-Present)

Project

NOU e-Gyan Portal

Engineered a fully functional NOU e-Gyan Portal featuring responsive design, user authentication, and SMS API integration. Utilized HTML, CSS, JavaScript, and Java to develop a scalable and interactive web application, ensuring seamless backend functionality and optimized user experience.

Practice Projects

1. Personal Portfolio

Created a personal portfolio using HTML, CSS, and JavaScript to showcase my projects and skills.

2. Quiz Website

Built an interactive quiz platform with dynamic content loading using JavaScript.

3. Text to Voice Converter

Developed a dynamic Text converter website using web technologies HTML, CSS and JavaScript.

4. BMI Calculator

Implemented real-time calculations and provided category-based health insights (e.g., underweight, normal, overweight, obese) to guide users. HTML, CSS, JavaScript for frontend UI and real-time BMI calculations.

Experience

1. Web Development Intern

Softpro India | July 2024 - August 2024

During my internship at Softpro Institute, I acquired valuable experience in web development, with key accomplishments including: - Spearheaded web development projects, leveraging hands-on experience to enhance coding skills in HTML, CSS and JavaScript. - Utilized problem-solving skills to troubleshoot and resolve technical issues, ensuring timely project completion and high-quality deliverables.
